Rumber Materials Announces Exhibition at 23rd Annual NATM Trade Show

(Muenster, Texas) – Visit Rumber Materials Inc. at booth 2107 at the upcoming 2011 National Association of Trailer Manufacturers (NATM) Convention and Trade Show, Feb. 23 – 25, 2011 in Albuquerque, New Mexico. Rumber's products and services will be showcased at the two-day event uniting trailer manufacturers and suppliers in a one-on-one setting. Trade show hours will run Thursday, February 24, from 1:30 to 6:00 p.m. and Friday, February 25, from 9:00 a.m. to 1:00 p.m.

Since 1991 Rumber has been manufacturing boards that out-perform traditional materials and offer a superior choice for trailer manufacturers. Among the many advantages of Rumber boards are their superior strength and durability, a traction surface which increases safety, a variety of widths and thicknesses, UV resistance, fluid impermeability, easy installation and cleaning, and cushioning of payload which reduces stress on livestock joints. Rumber products are also environmentally friendly as they are manufactured from 100% recycled tire rubber and plastic. In addition to boards, Rumber composite material can be used at full strength to create new products through extrusion, injection/compression molding and it can be extruded into sheets.

Rumber is ideal for a range of applications in the trailer industry including flooring for horse/livestock trailers, flatbed trailers, heavy equipment trailers and utility trailers. Rumber is also used for truck beds, trailer bumpers, saddle racks, hood racks and brush trays, sheets for stall dividers, horse trailer wall liners, and ramp boards. Clearly the best choice for the trailer industry, Rumber results in less down-time, fewer replacement costs, and extended life.

The NATM trade show will be held at the Albuquerque Convention Center, 401 2nd Street NW, Albuquerque, NM 87102. Other events throughout the week include educational workshops covering current issues in the trailer industry, networking events and receptions and the annual Friday night gala.

For more information and a full list of events, visit www.natmconvention.com, or contact the NATM headquarters at 785-272-4433.
